

Devansh Somvanshi

Balancing the subtleties of design with the brilliance of engineering

Profile

A Product Designer with **3+ years of engineering experience** building web & mobile products serving over 2 million users. Building across **greentech, workforce enablement & hospitality** drew me toward the thinking behind great digital experiences, leading me from engineering into design. Today, I want to bring an engineer's precision and product mindset to design teams creating experiences people return to and businesses grow with.

Design Projects

 **Product Thinking & Design Engineering Bootcamp Molecule**
Jun 2026 – Present

Project 1: RedBus Return Capture, Role: Solo Product Designer

Product Thinking, Information Architecture

- Played a key role in building an enterprise-scale learning and media PWA with **HLS streaming**, certifications and gamified assessments using a **micro-frontend architecture**.

Project 2: RedBus Return Capture, Role: Solo Product Designer

Architecture, Streaming, Engagement and Monetisation

- Played a key role in building an enterprise-scale learning and media PWA with **HLS streaming**, certifications and gamified assessments using a **micro-frontend architecture**.

Professional Experience

 **Software Development Engineer Nineleaps**
Feb 2021 – Mar 2024

Project 1: Enterprise Learning & Media PWA, Role: Frontend Engineer

Architecture, Streaming, Engagement and Monetisation

- Played a key role in building an enterprise-scale learning and media PWA with **HLS streaming**, certifications and gamified assessments using a **micro-frontend architecture**.

Project 2: Enterprise Learning & Media PWA, Role: Frontend Engineer

Architecture, Streaming, Engagement and Monetisation

- Played a key role in building an enterprise-scale learning and media PWA with **HLS streaming**, certifications and gamified assessments using a **micro-frontend architecture**.

Professional Development

Product Design Transition

Apr 2024 – Present

- Played a key role in building an enterprise-scale learning and media PWA with **HLS streaming**, certifications and gamified assessments.
